Request a Quote for Products & Services

The SEWP online [Quote Request Tool \(QRT\)](#) is the method recommended by the NASA SEWP Program Office for obtaining quotes. You may also contact the [DSI Program Manager](#) or [team members](#) for assistance.

Installation, Support, and Warranty

DSI engineers cover many disciplines to provide onsite installation and support. Basic warranty offerings are specific to each manufacturer's product. Extended warranty can be purchased anytime during the standard commercial warranty period and provides coverage for 12, 24, or 36 months after the initial start date, regardless of the commercial warranty period. The extended warranty coverage depends on the option purchased from the product manufacturer

Fair Opportunity FAR 16.505(b) (1) provides that each contractor shall be given fair opportunity to be considered for each order exceeding \$10,000 and issued under multiple award contracts. The FAR states that the method to obtain fair opportunity is at the discretion of the CO and that the CO must document the rationale for placement and price of each order. Using the SEWP online [Quote Request Tool](#) is the recommended method to assist in this activity and to augment the required decision documentation.
