DISYS Solutions Inc. Achieves Cisco Cloud and Managed Services Master Designation

08/02/17 Ashburn, VA: DISYS Solutions Inc. (DSI) is proud to announce that it has achieved the Cisco Cloud and Managed Services Master designation. This certification by Cisco recognizes that DSI has achieved an elite level of expertise to sell and deliver cloud and managed services.

To be able to offer this Cisco Powered Service, DSI completed a rigorous third-party audit to verify that Cisco Powered Services are delivered with enterprise-class reliability, security, and support. DSI will be identified as a Cloud and Managed Services Master Partner in the online Cisco Partner Locator in recognition of this achievement.

“Achieving the Masters designation within the Cisco Cloud and Managed Services Program brings greater breadth and depth to our service offerings, and builds upon our existing Managed Services, Cloud, Security, and Collaboration offerings,” said Alan Bechara, Sr. Vice President of DSI. “Our clients are demanding options when it comes to technology consumption models and DSI is leveraging certifications like Cisco Managed Services Master to give our customers the peace of mind that our systems, services, and delivery models stand up against the highest auditing levels from world class organizations like Cisco. Our teams have worked hard over the last year to achieve this Master level certification and Cisco’s accreditation affirms our knowledge and expertise.”

Upon presenting DSI with this designation, Cisco commented on the commitment and expertise that DSI has demonstrated and stated that they look forward to a continued, successful partnership.

In addition to being a Cisco Gold Partner, DSI adds Cisco Cloud and Managed Services Program (CMSP) Master to their list of Cisco Master Certifications that includes Master Collaboration Partner and Master Security Partner.

About DISYS Solutions Inc. (DSI): DSI provides complete IT solutions and services that are secure, innovative, energy efficient, and cost effective.
