

Smart, Connected Buildings for Education & Government

At DSI Tech, we can help you take advantage of smart building technology to create intuitive, trusted facilities – empowering you to lower costs, create efficiencies, invest in the future, and improve the lives of employees, students, citizens, and everyone you serve.

Have you ever truly considered the possibilities?

Smart buildings aren't just for big corporations or new construction. There are elements that can be added to your existing facilities to help you address some of the biggest challenges you're facing, including:

- Addressing changing health and safety concerns
- Providing safe physical & remote access to facilities
- Lowering utility, energy, and staffing costs
- Handling equipment monitoring and maintenance
- Modernizing student, citizen, & employee experiences
- Reducing your overall carbon footprint

And these are just scratching the surface!

When it comes to smart building technology, the possibilities are almost endless – and we'd like you to know that plenty of them are attainable and can fit into even the tightest of budgets.

Together with Cisco, we can help you bring those possibilities to life

At DSI Tech, we have the solutions, partnerships, and expertise needed to make your vision for smart, connected buildings a reality – and it all starts with creating a strong security & network foundation.

1 We'll help you put security front and center

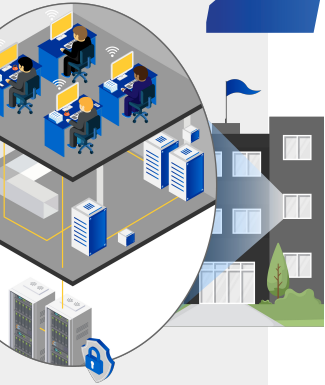

Security is one of our core competencies, and we'll ensure it's woven into everything in your smart buildings by helping you to:

- ✓ Develop overarching security plan
- ✓ Involve key stakeholders early in the process
- ✓ Architect, deploy, & support the tech you need
- ✓ Gain an integrated view into smart building security

2 We'll ensure you have the right network foundation

Our experts will work with you to leverage your existing investments and Cisco's intent-based networking solutions to build an IoT-ready network with:

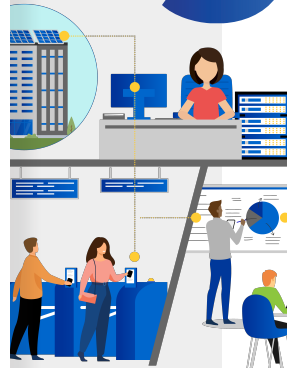

- ✓ Centralized management
- ✓ Core and edge routers & switches
- ✓ Wireless access points

3 We'll help you deploy the right endpoints, systems, & sensors

Smart building solutions aren't "out of the box" products. But with our expertise, we can make it seem like they are across a variety of use cases:

- ✓ Air quality monitoring
- ✓ Building and people safety
- ✓ HVAC management
- ✓ Lighting management
- ✓ Occupancy and space usage
- ✓ Predictive maintenance
- ✓ Smart elevators, parking, warehouses

The value of a partner like DSI Tech

When you work with us, you get a true partner who knows IoT, security, and your industry.

Stellar Track Record

We're easy to work with and have a long list of excellent references.

Experience in Your Industry

We have many years of experience in the private and public sectors.

Amazing Customer Experiences

We're customer-centric and care what happens beyond the order.

Comprehensive Capabilities

Along with security, we can be a single point of contact for all your IT needs.

Cisco Gold Partner

IoT Authorized with Master Specializations in Collaboration, Networking, Security.
