Cisco Meraki Solutions

Cloud Managed Sensors

Protect your critical IT infrastructure through the power of the Cisco Meraki platform and simple-to-deploy Meraki MT sensors:

- **Maximize network uptime and equipment lifespan** with real-time visibility & alerts that give you control over your environment. Ensure optimal conditions and minimize risk with remote monitoring and flexible alerting.

- **Gain value in less time** by quickly provisioning and managing thousands of sensors to monitor temperature, humidity, leaks, and intrusion.

- **Drive smarter decisions through data** by understanding trends about your physical environment. Improve safety, security, and operational decision-making through a data-driven approach.

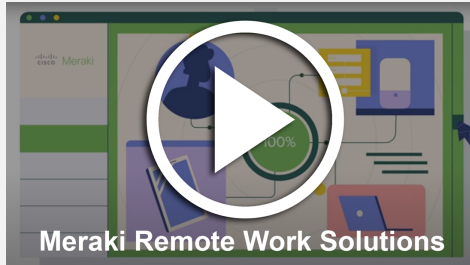

Remote Work Solutions

Extend the IT Experience: Keep employees and clients securely connected. Optimize network performance and prioritize apps to maintain productivity.

Eliminate Risks: Forbes concluded that 18% of VPNs had potential malware or viruses. Trust Meraki to keep your data and applications secure.

Plan for the Future: Partner with DSI & Cisco Meraki to establish the future of your workforce. These scalable solutions are managed through a single dashboard.
