Issue #12   **December 22, 2020**

In This Issue:

SolarWinds Attack • Cisco IoT • Crestron Cisco Integration

SolarWinds Attack

In a sophisticated supply-chain attack, adversaries compromised updates to the SolarWinds Orion IT monitoring and management software. Visit these websites for details:
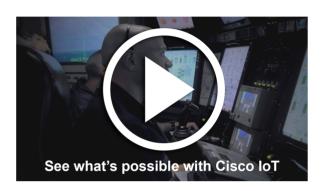

- Cisco Talos: https://blog.talosintelligence.com/2020/12/solarwinds-supplychain-coverage.html

- FireEye: https://www.fireeye.com/blog/threat-research/2020/12/evasive-attacker-leverages-solarwinds-supply-chain-compromises-with-sunburst-backdoor.html

- Microsoft: https://msrc-blog.microsoft.com/2020/12/13/customer-guidance-on-recent-nation-state-cyber-attacks/

Don't be a victim of these kinds of attacks… Cisco Secure products like AMP kept DSI safe, and we can do the same for you. Reach out anytime!

Cisco IoT

DSI recently achieved Cisco's Internet of Things (IoT) Authorization, which allows DSI to better assist customers with digital business transformation. Read the press release and be sure to check out this one-minute video to see what's possible with IoT!

See what's possible with Cisco IoT

Did you know? 500 billion devices are expected to be connected to the Internet by 2030. Each device includes sensors that collect data, interact with the environment, and communicate over a network known as the Internet of Things.

Crestron Simple Integration with Cisco

Cisco has been a Crestron Integration Partner for more than a decade. The user experience within thousands of conference rooms is enhanced through seamless integration of industry leading technologies. As a Crestron Partner and Cisco Gold Certified Partner, DSI can be your go-to source! ["Crestron & Cisco – Better Together"]

Common Design Challenges

- More inputs
- Signal extension from table to the codec
- Single point of control through the Cisco Touch10 interface

Crestron & Cisco Simple Set-up Demo

Solutions

- **Plug-n-Play Solutions:** Enabled through simple auto-switching.

- **Configuration Based Solutions running on Crestron Control processors:** Seamless integration through simple web-based configuration via crestron.com and larger number of supported AV switches.

- **Fully Custom Solutions:** Simplified Integration with Crestron Certified Drivers and Control Modules and enables control all rooms functions.

- **Native Integration with DMPS Lite products (coming in 2021):** Seamless integration through simple web-based configuration on the device and Cisco API support built into the FW of the switch.
