Issue #24

December 17, 2021

In This Issue:

[Virtual Reality for Schools](#) • [Apache Security Advisory](#) • [Tech Updates](#) • [Hybrid Work & Learning](#) • [Join the DSI Team](#)

Virtual Reality for Schools

The education delivery mechanism is a constantly changing landscape and lately we are seeing more and more of virtual reality-based education and training. And it makes perfect sense.

If you can show a third grader the surface of the moon, Saturn's rings, and Mars' moon, why would you want them to learn the same thing by reading about it? It's a faster & better experience, can be interactive, and most importantly it's a fun way to learn.

Click the button below to learn more about Virtual Reality and why your network infrastructure is so important:

Apache Security Advisory

On December 9th, a vulnerability in the Apache Log4j Java logging library affected all Log4j2 versions prior to 2.15.0 and affects Cisco products. See below for resources and more information:

- Official Log4j release: <https://logging.apache.org/log4j/2.x/>
- Cisco security advisory: <https://tools.cisco.com/security/center/content/CiscoSecurityAdvisory/cisco-sa-apache-log4j-qRuKNEbd>
- Vendor list and their current remediation in work: <https://gist.github.com/SwitHak/b66db3a06c2955a9cb71a8718970c592>
- More info on Reddit: https://www.reddit.com/r/blueteamsec/comments/rd38z9/log4j_0day_being_exploited/
- Github POC: <https://github.com/welk1n/JNDI-Injection-Exploit>

Tech Updates

New fonts were applied to the Meraki dashboard earlier this month to improve dashboard readability and consistency. [[Learn More](#)]

Your Meraki dashboard will have **five free licenses for MT devices**; if you would like to buy or try them, you have licenses for free already in your dashboard! [[Learn More](#)]

Cisco's 2022 Global Networking Trends Report focuses on an emerging trend that has big implications for the future: Network as a Service (NaaS). [[Read Report](#)]

For the second edition of the **Cisco Security Outcomes Study**, they asked all respondents about their approaches to the five key drivers of cybersecurity program success, uncovered through extensive prior research. [\[Read Report\]](#)

The Future of Hybrid Work & Learning

We're helping government agencies and schools create the secure IT foundation needed to support the future of work or learning for your organization. Whether you'd like to improve your existing operations or you're in the process of building a stronger foundation for the future of your workplace or school, **DSI** can help you accomplish these goals!

Can you relate to any of these challenges?

Work and school have become "something we do" rather than "a place we go". As leaders like yourself strive to accommodate this change and plan for tomorrow, they're running into a host of challenges that include:

- Enabling two different work or learning environments simultaneously while ensuring the same experience for both locations
- Transitioning away from doing things completely remote and bringing people back to their facilities safely in various stages
