## Tech Updates

Duo has been recognized as a Customers' Choice for Access Management in Gartner Peer Insights for two years in a row. [Read the announcement](#) and [download the research to learn more!](#)

Cisco is augmenting the network for the future, bringing together new predictive technologies with its broad portfolio of observability, visibility, and detection technology to improve reliability and performance across all operational scenarios. This first-of-its-kind predictive analytics engine will help IT teams prevent issues and elevate the user experience. [Learn more here!](#)

Meraki APIs make it possible to rapidly deploy and manage networks at scale, build on a platform of intelligent, cloud-connected IT products, and engage with users in powerful new ways. [See what's new!](#)

*Cisco Live* is the place to meet, greet, learn, and share ways of solving some of the biggest challenges out there. It delivers education and inspiration to technology innovators worldwide through large-scale in-person and digital events, as well as on-demand education. It is the premier destination for Cisco customers and partners to gain knowledge and to build community, either virtually or in-person.

*If you are attending in-person, be sure to meet and greet with DSI Tech team members!*
