# DSI Tech Named NetApp Gold Partner

08/12/22 Ashburn, VA: DSI Tech is celebrating a high achievement of becoming a NetApp Gold Partner! The NetApp Unified Partner Program offers sales, marketing, and technical resources that empower businesses to grow and provide data-driven business outcomes to customers. DSI Tech has become closely affiliated with NetApp through cohesive solution deliverables that help customers modernize their world of IT, while accelerating their digital projects. This partnership means DSI Tech has the greater ability to securely deliver the right data servicing to the right people at any time, and any place.

"This is an outstanding accomplishment for DSI Tech and demonstrates our ability to provide sophisticated, value-added solutions through our in-depth sales capabilities, technology skills, and service offerings," said Alan Bechara, Executive Vice President. "With this additional partnership with NetApp, we can offer even more opportunities for our customers to grow and excel in their business goals."

DSI Tech is a top software and solution provider in the IT industry. In addition to NetApp, we partner with companies such as Cisco, Palo Alto Networks, Sierra Wireless, Microsoft, HPE, Aruba, VMware, and APC. Our goal is to deliver the best IT practices to our customers and create long-lasting relationships that make an impact, leading to great success stories.

About NetApp: NetApp is a hybrid, cloud-led data servicing and data management company based in San Jose, California. NetApp's mission of simplifying, expanding, investing, and differentiating, empowers organizations to lead with data in the age of upcoming transitions and digital transformation. NetApp was founded in 1992 and built a reputation by anticipating every new wave of change regarding the internet, data, and delivering cutting-edge technology that drives businesses forward. NetApp's Data Fabric provides consistent capabilities across on-premises and multiple cloud environments, making it extremely lucrative for end users. Learn more at netapp.com.
