Cisco Live Amsterdam Highlights

Key highlights from the event include delivering on the security cloud vision, cloud automation for industrial IoT, building a technology-driven approach to sustainability, and empowering 10 million people in EMEA with digital and cybersecurity skills. [Read More]

Cisco provided a tech preview of their Full-Stack Observability Platform which is slated for availability in June. It allows teams to bring together telemetry data from their own context and drive correlated insights across the entire IT estate. [Read More]

Watch the recap of *Cisco Live* EMEA here for news on sustainability, security, and reducing IT complexity. If you would like to see more content from the event, read this article, explore the press kit, and watch the keynotes here.

Get the Highlights

ESXiArgs Ransomware Guidance

CISA and the FBI released a joint Cybersecurity Advisory in response to the ongoing ransomware campaign known as "ESXiArgs". Malicious actors may be exploiting known vulnerabilities in VMware ESXi servers that are likely running unpatched and out-of-service or out-of-date software versions to gain access and deploy ransomware. The ESXiArgs ransomware encrypts configuration files on ESXi servers, potentially rendering virtual machines unusable.

Demystifying Security, Trust, and Compliance

Security, privacy, and trust are paramount when it comes to cloud networking services. Transparency is equally vital. Security, privacy, and trust - like the cloud - are part of Meraki's DNA. They underscore everything they do with the platform and the services they provide to millions of customers in the United States and around the world. This article answers some of the top questions customers ask about the Meraki platform.
